The Thailand automotive industry is the largest in Southeast Asia and the 6th largest in the World in 2012. The Thailand industry has an annual output of near 1.5 million vehicles (mostly commercial vehicles), more than countries such as Belgium, the United Kingdom, Italy, and Turkey.

Most of the vehicles built in Thailand are developed and licensed by foreign producers, mainly Japanese and South Korean but with several other presences as well. The Thai car industry is taking advantage of the ASEAN Free Trade Area (AFTA) to find a market for many of its products. Thailand is one of the world's biggest markets for pickup trucks with over a fifty percent market share for one-ton trucks. (Source Wikipedia)

- We are working with customer by full support from Sales staff team , and CSD department.
